## ABSTRACT

To provide a sewing thread that is excellent in highspeed sewability and automatic sewing characteristics. A
sewing thread includes a plurality of under-twisted yarns
provided with upper-twist, the yarns each being composed of
a sheath-core structure yarn composed of two or more
multifilament yarns, wherein part of the sheath-core
structure yarn protrudes as loops on a yarn surface, the
loops being composed of 50 to 300 loops/m with 0.7 to less
than 1.2 mm length and 10 or less loops/m with 1.2 mm or
more length, and wherein the yarns have a strength of 4 to 6
cN/dtex.
